

Push Th' Little Daisies

Ween

When you lie, kiss your baby bye bye
If you're true, the whole wide world will laugh with you
When we see nothings wrong with you and me
And time will tell, it might even ring a wedding bell, now
If you think that I'm a loser well you suck
'Cause you know I ain't nothin' but a user
Of your love I can't get enough but girl it's true
The whole wide world is smiling with you
Push the little daisies and make 'em come up
Push the little daisies and make 'em come up
Push the little daisies and make 'em come up
Push the little daisies and make 'em come up
But sometimes I know and sometimes I'm on the go
But I'm comin' back, so don't give me no flack, yeah
It's all you and it's me too and it's your world, you's the girl, you's the girl
Happier than shit, things that might go click with me
Click with you, is that love, is that love, oh
Push the little daisies and make 'em come up
Push the little daisies and make 'em come up
Push the little daisies and make 'em come up
Push the little daisies and make 'em come up
Push the little daisies and make 'em come up
Push the little daisies and make 'em come up
Push the little daisies and make 'em come up
Watch the little daisies grow, little daisies grow
Now just push the little daisies and make 'em come up
You watch them grow, watch them grow
As I push the little daisies and make 'em come up
Make 'em come up, make 'em come up, make 'em come up
Say push the little daisies and make 'em come up
Now push the little daisies and make 'em come up
Now push the little daisies and make 'em come up
Push the little daisies and make 'em come up
Push the little daisies and make 'em come up
Say push the little daisies and make 'em come up
Say but push the little daisies and make 'em come up
