

# Tears

Bonnie Tyler

(frankie miller)

Producer for bonnie: jim steinmanSuch a long time ago

Now I know

You've woke up to find

You were wrong

There ain't no doubt

Put me out

Nearly made me blindYou sent me a letter, brought tears to my eyes

Tell me you've changed, after all this time

Like a stone rolling down the mountainside

It's over, you can't turn the tide, and it's...Chorus

Tears falling about love, falling without love

Tears falling about love, falling without loveI was glad

To be with you

Near to you

My heart can't deny

I was sad

To leave your side

Stripped of pride

When you said goodbye

For every new road there must be a friend

For every broken heart there must be a mend

And the rain only lasted so long

It's over, the thing we had is gone, and it's...Chorus - instrumentalTo tell me you've changed brought tears to  
my eyes

Say you've rearranged after all this time

Like a stone rolling down the mountainside

It's over, you can't turn the tide, and it's...Chorus-repeat and fade
