

# Twist Of Fate

## Emilia

This is my free will  
This is my song  
I'm telling you, boy  
This is so wrong You can't go on like this  
Playing this game  
'Cause all it will bring  
Is hurt and pain Give me strength God  
Give me faith  
'Cause I will need you now A twist of fate  
I can't think straight  
When I'm walking out that door  
I'm not coming back no more A twist of fate  
It is too late  
I don't care what you will do  
'Cause I'm not coming back to you  
A twist of fate Turn on the the big red light  
'Cause here I come  
Gonna tell the world  
He's the greatest scum When you defied my love  
I told my heart  
That if I fall again  
I'll leave this part Give me strength God  
Give me faith  
'Cause I will need you now A twist of fate  
I can't think straight  
When I'm walking out that door  
I'm not coming back no more A twist of fate  
It is too late  
I don't care what you will do  
'Cause I'm not coming back to you  
A twist of fate Are you lonesome?  
Look at your past  
What did you do  
To make it last? I am happy, 'cause I am free  
It's the way, I wanna be  
I know that you'll be missing me  
You'll be missing me A twist of fate  
I can't think straight  
When I'm walking out that door

I'm not coming back no more A twist of fate

It is too late

I don't care what you will do

'Cause I'm not coming back to you

A twist of fate Oh, no, no, no, no, oh

This is too late

I'm not coming back no more

'Cause this, this is too late
