

# Girl Is on My Mind

## The Black Keys

Girl is on my mind  
Girl is on my mind  
Try to ignore, try to unwind  
She is on my mind Eyes are in my eyes  
Eyes are in my eyes  
Where I've been, how time flies  
She is in my eyes See her standing there  
See her standing there  
She's gentle now, and takes great care  
See her standing there Hold me close to you  
Hold me close to you  
Not one thing, would not do  
Hold me close to you
