Go First

Damien Jurado

Are you all right?
You're making me nervous with how much you leave me here.
Is it a sign?
I don't feel like ever getting well

Tell me the lie, you're taking your time over and over
Tell me the lie, you're taking your time over and over

My closest friends live on the side of where you now divide.
Is it a sign?
I don't feel like ever getting well

Tell me the lie, you're taking your time over and over
Tell me the lie, you're taking your time over and over

You can go first.
You're making me nervous with how much you leave me here.
Is it a sign?
I don't feel we're ever getting well

Tell me the lie, you're taking your time over and over
Tell me the lie, you're taking your time over and over
Tell me the lie, you're taking your time over and over
Tell me the lie, you're taking your time over and over
