

# Lean

## Jimmy Eat World

You keep it simple at the start  
And never question things too hard  
It shouldn't shock you  
When you're down  
This far  
When I think I'm so messed up  
And when you think you're so messed up  
Gotta keep in mind  
We're just us  
I'm hoping for the perfect day

When I look in to the right face  
And really mean it saying  
I'm OK  
I'm not asking for a fix  
I just need you close to reach  
When I can't stop myself at all  
If I don't lean on you, I fall  
Every single time I'm wrong  
Every selfish trip I'm on  
If I don't lean on you  
If I don't lean on you I fall
