# Love / Hate

## Yarn

Every little beating of my heart
Every little touch you made that left a little scar
That loves you
Loves you (x3)
Every little tought inside my head
Every little jab you took that left a little dent
Loves you (x4)
And I try not to linger
In the past, and what has been done
Try to find a lesson of all the wrong that somehow won
Oh I look to the future
And the ones that I love
Not you, not you
Every little beating of my heart
Every little cut you made that left a little scar
Loves you, hates you(x2)
So I try not to linger
In the past, and what has been done
Try to find a lesson of all the wrong that somehow won
Oh I look to the future
And the ones that I love
Not you, not you(x2)
Yeah I try not to fall
And I feel weak and I feel small
And I
Try not to hurt
When the pain is getting worse
And I try not to give up
And I fight to be strong
I will lead this revolution through the perils of my heart
I will look to the future and the ones that I love
Not you, not you(x2)
Yeah I try not to fall
And I feel weak and I feel small
And I
Try not to hurt
When the pain is getting worse
And I try not to give up
And I fight to be strong

I will lead this revolution through the perils of my heart
I will look to the future and the ones that I love
Not you, not you(x2)
Every little beating of my heart
Every little cut you made that left a little scar
Loves you, hates you(x4)
