Warm Winter's Day

Alison Valentine

We've got a warm winter's day
A warm winter's daymmmm yeahTemperature can't get any colder
So darling wont you come a little closer
Cause baby just as long as we're together
We've got sunshine in this cold weathermmmm yeahWe've got a warm winter's day
Watching the snowflakes play
We're dreaming about June
In bed all afternoonSo close your eyes and take my hand
We'll draw our initials in the sand
The waves break on the shore
Don't feel the cold no moreWe've got a warm winter's day, ay ay
A warm winter's day, ay ay
We've got a warm winter's day, ay ay
A warm winter's day, ay ayCome find me under the covers
We could be december loversCome find me under the covers
We could be decemeber loversCome find me under the covers
We could be december lovers
Outside it may snow and storm but
I can keep you safe and warmCome find me under the covers
We could be december lovers
Outside it may snow and storm but
I can keep you safe and warmMmm yeahA warm winter's day, ay ay
A warm winter's day, ay ayWe've got a warm winter's day, ay ayA warm winter's dayAs long as I'm wrapped up in your arms.
