

# Walking Behind

## Jimanica

She's running and he's walking behind  
He's trying but he's last in her line  
His love's dying but he keeps on tryin'  
He lives in fear with a love that's clear  
(He's walking behind)

He's got love that he needs to give but she's afraid to let him in

To her world with no together  
She can't see him in her picture

She wants love but her heart won't let her let him in  
He's walking behind, he's walking behind  
The phone's ringin', is it her on the line?  
Does he answer or is he wasting his time?  
Her love's dying but she keeps on trying  
She lives in fear of a love that's clear  
(She's walking behind)

She's got love that she needs to give but he's afraid to let her in

To her world with no together  
She can't see him in her picture

She wants love but her heart won't let her let him in  
He's walking behind, he's walking behind  
To his world with no together  
He can't see her in his picture

He wants love but his heart won't let him let her in  
She's walkin' behind, yeah

They've got a love to give but they're afraid to let it in

She's got a love to give and he's got a love to give  
So let 'em in, yeah

In a world with no together  
She can't see him in her picture  
She wants love, so let him in  
To his world with no together  
He can't see her in his picture

He wants love but his heart won't let him let her in  
He's walking behind, she's walking behind
