

# Revolver Fires (OST Jigen Daisuke gravestone)

## Gary Stockdale

Dressed in black  
With slated hat  
No one know  
What you see

(No no no..)

Stylish looks  
With shaggy beard  
And chicks and scotch  
Relieve your pain

Revolver fires  
Let it go!  
Trailing notes  
And smoking barrel

Like a wolf in a bush of ghosts  
You never care  
Who's gonna close behind your back (no no no!)  
Never feel sorry for being all alone  
Every minute, every second, every little moments

Never be harsh  
You're so sweet  
Gently move  
With bitter jokes

Don't look back  
The deed is done  
The sun shows up  
Just as bright

Revolver fires  
Let it go!  
Trailing notes  
And smoking barrel  
A man in black
