Etna

Misstress Barbara

We'll make you leave us in the Etna
we'll keep it silent on and foreverFinal stop on bay reef
don't wait up unnecessary
decorate my humor
I feel better with my smile on
this must be the mountain
this must be the place I'm looking forWe'll make you leave us in the Etna
we'll keep it silent on and foreverMade our beds inside it
noone else can find us in here
beautiful surroundings
underneath unknown is hiding
nothing we're affraid of
this is just the place we're looking forWe'll make you leave us in the Etna
we'll keep it silent on and forever
