The Delivery (Instrumental)

Curtis Young

i almost didn't make it,
my ...for famous,
the fifteenth of december, born into this cold world,
..having me in the bathroom,
surprised that i will survive...
but in the toilet...
momma passing out, just to cut me the umbilical!
...
who would have thought ...
came from a different ... my... is the boss.
now i'm looking at the world from a different view,
fake, try to...
now, what you're crying sis? ...chorus:
i'm so far... since i was born,
i've been that baby!
who wouldn't know ... no one can save me!
these flashing lights got hold of me, isn't that crazy,
but here i am, you can't be mad,
cause you won't make me who i am!now remind me a little,
i remember the time when i was only twelve
the only thing on my mind making it big,
rocking.. i lost confidence...
.. and being dr. dre.
never knowing all along that my father was dre.
we took a dna just to try to prove it,
speechless, i could have been the son of a music
icon? get that?
now it's official... wide opened
.. it's the issues,
a former nobody, nowadays a celeb,
but i am not gonna use the talent to...
i hear them talking, i feel like i'm the man now,
tmc got me on the .. plan now!
drop a bomb, let 'em hit what i can't do,...chorus:so check the dna, i'm...
west coast smiling me...
doped like a pharmacist, high in the clouds...
.. but the paparazzi watching,...
delight of a legend, and i ain't slowing down,
...the cop...

but i ain't paying.. locked down...
..the city is my witnesses!
so let the beat bang, and pass the crown over, ...chorus:
