Create A Monster

Loverboy

Hawaaoooooaaaaooooo hawaaoooooaaaaooooo
Hawaaoooooaaaaooooo hawaaoooooaaaaooooo
Well I'm trapped on a roller coaster
And they won't let me go so it's totally bogus
And every single day it gets colder, colder
'Till my mood get low like below the sofa
Can somebody tell me where to go?
Somewhere far away where it can't go wrong
There's way too many snakes on this globe
Now everybody sing it, everybody sing it
We created a monster, created a monster
But nobody wants some, but nobody wants some
Created a monster, created a monster
But nobody wants to kill it
So long
But since there's nowhere to go (nowhere to go)
I guess I'll be on the road (goodbye)
Wherever my soul will go (so long)
Goodbye, so long
(Where you goin?)
Outer-spa-yaa-yaa-yaaace
Outer-spa-yaa-yaa-yaaace
Outer-spa-yaa-yaa-yaaace
Goodbye, so long
To get where I am I can give you directions
I'm in the future I can get with the Jetsons
I need to leave someone give me suggestions
Man elections, the whole planets infected
Uh, call the doctor I could use some direction
Uh, call the reverend I could make a confession

Built just like a subatomic nuclear weapon
Everybody say it, everybody say it
We created a monster, created a monster
But nobody wants some, but nobody wants some
Created a monster, created a monster
But nobody wants to kill it
So long
But since there's nowhere to go (nowhere to go)

I guess I'll be on the road (wazzup?)
Wherever my soul will go (that's what I thought)
Goodbye, so long
(Where you goin?)
Outer-spa-yaa-yaa-yaaace
Outer-spa-yaa-yaa-yaaace
Outer-spa-yaa-yaa-yaaace
Goodbye, so long
(AHHHHHH Everybody sing it, everybody sing it, I said everybody sign it, sing it)
We created a monster, created a monster
But nobody wants some, but nobody wants some
Created a monster, created a monster
But nobody wants to kill it
So long
But since there's nowhere to go (nowhere to go?)
I guess I'll be on the road (on the road
Wherever my soul will go (haha)
Goodbye, so long
(Where you goin?)
Outer-spa-yaa-yaa-yaaace
Outer-spa-yaa-yaa-yaaace
Outer-spa-yaa-yaa-yaaace
Goodbye, so long
