

# Justify (Marc Norman Remix)

[ATB](#)

At a time, in situations  
When you want a thing more than you should  
You would fall, you would crumble  
By picking up the pieces from the storm That was when you said you least expect it  
That was when you asked, "How did we get this far?" So far  
That was when I wanted to correct it  
But I guess there's nothing wrong with being wrong at all And I can't do it any other way  
Repeat and do it all the same way  
And I won't justify  
One more time And I can't do it any other way  
Repeat every single word we said  
And I won't justify  
One more time And it's fine to complicate it  
Complicated's all I've ever known  
I was there, did you see me?  
Frozen in a flash, put on the wall Now is when I guess I least expect it  
But I will never ask, "How did we get this far?" My God  
Even if I doubt for just a second  
I can still find the right in being wrong, so wrong And I can't do it any other way  
Repeat and do it all the same way  
And I won't justify  
One more time And I can't do it any other way  
Repeat every single word we said  
And I won't justify  
One more time
