

# Less Than

## Marriages

He comes up and  
He comes and he will  
He comes to show me loveHe comes for me here  
He comes and he kills  
But all is in the name of loveOn golden hills  
On sleeping pills  
I beg to learn the way aboveShow me love less than  
Show me love less than  
Show me love less than  
Show me loveHe came in here  
He showed me his will  
He did until the day was done  
He came to me  
He came here to kill  
He said I was the only oneOn my night meds  
On my deathbed  
I begged for him to be aboveShow me love less than  
Show me love less than  
Show me love less, love less, love lessDon't you say everything is alright  
So far behind your eyes  
I see every lie  
In dreams I die, in dreams I die, in dreams I die  
I dream of golden places  
Our shining faces  
Our endless waste  
And your boundless taste  
Show me love less then  
Show me love less than  
Show me love less than  
Show me whenShow me when  
These arms are open  
Show me when  
Those arms are openShow me love less than  
Show me love less than  
Show me love less than  
Show me love
