

# Where Did You Go?

## Full Devil Jacket

Where did you go?  
When you let me go?  
I waited for you in a special place  
Ohh, no no no no no  
Cold blue eyes turn to stone  
You break the vein and bruse the bone  
It feels so dullWhere did you go?  
When you let me go  
I waited for you in a special place  
You gravitate, it lifts us all  
You hold the hand that made you fallWhere did you go?  
When you let me go  
I waited for you in a special place  
Oh no, I fall in the darkness  
You cannot find your way home, you cannot find youI waited for you in a special place  
And flowers died, you know they cannot grow  
With no light noWhere did you go?  
When you let me go?  
I waited for you in a special place  
(You you)  
(In a special place)  
And flowers died, you know they cannot grow  
With no light  
(Without your, without your light)Where did you go?
