Blush

Secret & Whisper

Birds sing of lullabies
And guide you to the orchard when you die
Should boredom arise
Spend time with the wildlifeWaking up to sounds
May cause you to take a look around
Entertain your friends
With audio of dead relativesIf you spend a lonely night
Thinking about the people in your life
Just turn off the light
You've done that a thousand timesWaking up to sounds
May cause you to take a look around
Entertain your friends
With audio of dead relativesTeenagers are spending time out on the edge
I am spending most my time sleeping in my bed
The birds are singing from the trees
I listen to their melodiesThe birds are singing from the trees
I listen to their melodies
