

# Emotions

## Twista

Let me play with your emotions Well, a motherfucker could never control me  
Only squeeze me and hold me  
That's what the hoe came up and told me, now is she bold G?  
But in my mouth is where the gold be 'cause I be pimpin' her like Goldie  
Gotta get paid in this age my fingers  
ain't made  
Just to be choppin' up confetti with, if it's already thick  
You better study nigga if you ain't with it you can get it  
'Cause I ain't even on that petty shit, so who the fuck you actin' petty with?  
The rhythm I kick, is like a  
rhythmly-wicked-arith-a-metic  
Pick 'em up quick and then give em the dick, thinkin' I'm innocent  
They up in the mall shoppin' for me pickin' a fit  
I got them Heifer's nose red And when we get in the bed, I be leavin' em with froze legs  
Stuffin' that made 'em wanna pose dead  
But you already got 'em until you get up in them hoes head  
I don't mean to sound bogus or nothin' But it's the bomb when I be havin' them cuties thinkin'  
I'm in love with 'em, when I'm rubbin' 'em  
Be gettin' pub with 'em, in a club with 'em  
Smokin' dub with 'em, huggin' 'em, freakin' in the tub with 'em  
After gettin' paid from her she ain't trippin'  
'Cause she know she got what she paid for  
She honor my name, I gotta tame, here it go  
Now we speakin' with the game on ways to make mo' Let me play with your emotions hoe  
To the rhythm of a hi-hat, take a puff and lie back  
Let me stimulate your mind, body and soul, I know you want to try that  
Now motherfucker can you buy that, tell me baby can you buy that?  
I got you under my complete control, you know it's worth more than  
Diamonds and gold, now don't be bogus and deny that Emotions hoe  
To the rhythm of a hi-hat, take a puff and lie back  
Let me stimulate your mind, body and soul, I know you want to try that  
Now motherfucker can you buy that, tell me baby can you buy that?  
I got you under my complete control, you know it's worth more than  
Diamonds and gold, now don't be bogus and deny that Now how the fuck you gone act hoe, I saw you creepin'  
out the back do'  
What you runnin' from a mack fo' ? Lay you on your back slow  
'Cause you know I got you with my lasso  
Blow your mind like a afro, come and take a glimpse of the stairs It's the aroma of a pimp in the air, I betcha  
notice the smell  
It's like a lotus when I flow dis, cause my eyes be the lowest  
If you didn't notice then you bogus as hell  
I'm puttin' women under my spell Like I'm up in their brain, pumpin' their vein

With game for the anatomy that's feminine  
They're fillin' 'em up with adrenaline, got 'em geekin'  
We're speakin approachin' up a pimp like a gentleman  
Submission is surrenderin', it ain't no endin'  
If it's on with a blunt from the bomb sack  
In the right place, with the right mind and the right line  
You can get a lifetime contract  
They be wise until they look into your eyes  
A shorty freaked when she spotted mine  
Took her over to my crib, lay low, hit her off from behind  
Then she signed on the dotted-line  
The hoe was like, "Ooh Daddy, why you doin' me like this?  
I'd do anything to be with you, you got me gone in the head"  
Ya mind, I don't mean to make a disaster up like my Dad to master love  
But if a motherfucker breakin' you for every penny you earn  
Then how could you still show the bastard love?  
I guess it's 'cause I'm cold, shit  
Thought you was gon' be spendin' me I betcha think you sho' did  
But game recognize game, now you lame in the brain  
Stupid bitch that's what you get for tryin' to gold dig, now  
Let me play with your emotions hoe  
To the rhythm of a hi-hat, take a puff and lie back  
Let me stimulate your mind, body and soul, I know you want to try that  
Now motherfucker can you buy that, tell me baby can you buy that?  
I got you under my complete control, you know it's worth more than  
Diamonds and gold, now don't be bogus and deny that  
Emotions hoe  
To the rhythm of a hi-hat, take a puff and lie back  
Let me stimulate your mind, body and soul, I know you want to try that  
Now motherfucker can you buy that, tell me baby can you buy that?  
I got you under my complete control, you know it's worth more than  
Diamonds and gold, now don't be bogus and deny that  
Yeah, this be Hype, the Verbal Tantrum  
Kickin' it with my man Twista  
If you should suck my soul, I should make your funky emotions  
Nothin' is good unless you play with it, play with me baby  
I know you think it's blasphemy  
But won't you give up when she ask for me after he passed the beat  
Since you said I was your Majesty, I had to see  
And when you get paid, there is some cash for me, is it a tragedy?  
That I can get her so gone, the hoe be trippin'  
talkin' up her love a lot  
But the only love I got, is when I'm grippin' like I wanna hug the Glock  
Or when I rub the twat, or pickin' up a dub at spots  
Fuck the hoe thugs, the clubs, and the phony perpetrators with dimes  
The speed knots mobstas, Do or Die,  
Psycho Drama, Crucial Conflict  
Be pimpin' with 'em gators and Dobbs, collect the papers and dolls  
Player haters remarks will get smoked to a blunt dust  
So keep walkin' the next time you hear grown folks talkin'  
Motherfuckers betta shut the fuck up  
'Cause we make the women suck up  
You insist to be trippin while we be gamin like Don Juan  
What up the Filet Minion, the Gray Poupon  
Them hoers are staked to charm, because we make the bomb  
Now I don't mean no harm, but either come on in or get on gone  
And let me pour my potion slow, in between your thighs

Come take a pull and vibe and let your tongue go coastin' low, now  
Let me play, with your emotions hoe

To the rhythm of a hi-hat, take a puff and lie back

Let me stimulate your mind, body and soul, I know you want to try that

Now motherfucker can you buy that, tell me baby can you buy that?

I got you under my complete control, you know it's worth more than

Diamonds and gold, now don't be bogus and deny that  
Emotions hoe

To the rhythm of a hi-hat, take a puff and lie back

Let me stimulate your mind, body and soul, I know you want to try that

Now motherfucker can you buy that, tell me baby can you buy that?

I got you under my complete control, you know it's worth more than

Diamonds and gold, now don't be bogus and deny that  
Let me play, oh babe

I wanna play with your emotions

Can I play, ooh, all I wanna do girl

Is play with your emotions
