

Living Room

Tegan And Sara

My windows look into your living room
I spend the afternoon on top of you
I wonder what it is
That I did to make you move in
Across away from me
I hope I never figure out
Who broke your heart
And if I do, if I do I'd spend all night losing sleep
I'd spend the night and I lose my mind
Well I'd spend the night and I'd lose my mind My windows look into your bathroom
Well I spend the evening watching you get yourself clean
And I wonder why it is
That they left this bathroom so unclean
So unlike me
I hope I never figure out
Who broke your heart
And if I do, if I do I'd spend all night losing sleep
I'd spend the night and I lose my mind
I'd spend the night and I lose my mind I'd spend all night losing sleep
I'd spend the night and I lose my mind
If I spend the night then I lose my mind Well I hope I never figure out who broke your heart
And baby if I do
Well I hope I never figure out who broke your heart
Baby if I do Well I'd spend all night losing sleep
I'd spend the night and I lose my mind
If I spend the night then I lose my mind Spend all night losing sleep
I'd spend the night and I lose my mind
If I spend the night then I lose my mind Spend all night losing sleep
I'd spend the night and I lose my mind
If I spend the night then I lose my mind
