

I'm Your God Now

Machine Head

So pain, told you to take her
And I've learned to accept that feelin'
'Cause I found how to numb it
If only for just a short while Id get so high, Id forget my name
I scarred my fist, I scarred my brain
I think that Im goin' insane
I know that Im goin' insane, yeah So drink up, so shoot in
'Cause Ill make this feelin' end
I crawled in my narcotic shell
Was crucified in my own hell
A gutters where I found myself
Among the waste, I chose to dwell
I chose to dwell So now, Im in your system
And Im, what helps you numb your pain
With time, you will confide in me
So lonely my friend, Ive made you lose control Yse me more and more with time
Our friendship grows with each mainline
So glad that you could be so blind
So glad that you could be so blind, yeah So drink up, so shoot in
'Cause Ill make this feelin' end
I built you this narcotic shell
I crucifies you in your hell
Your life's not yours, youre just my slave
I am your Messiah of pain And time has come to
Time has come to, time has come to
There is no time to pray, pray, yeah, oh Im your God now, 'cause Im your God now
'Cause Im your God now, 'cause Im your God now
Im your God now, Im your God now
Im your God now, Im your God now, now, now, now
