Burst open split open
No time to answer any questionJust with us and feel the groove
Check G.L.O.B.E. gonna proove
Move ya chest roll up ya robe

Dance trance all in a globe Feel like dance
It's sad how lately I can't savor
The dizzying memories
Of some time, those distant, almost-forgotten days
Why do people whisper of a romance that colors a generation
And a love that's not enough to satisfy
Tonight with the dance Let me know that you never never give it up
Watch me now and we are gonna make it up
Put ya hands up put ya hands up
Make some noise and all gonna wick it up Keep on moving just like this
And stay with us and keep on free
Happy baby? So move ya body
Take ya fun where you can find it Though I continue to live
A life of peace and dreams, I get bored
I alternate between worry and kindness
Which face should it be? On tearful nights, the park provides relief from heat and noise
Somebody please listen by my side as I talk about my feelings
Now I can't go anywhere Feel like dance
At some point I almost gave up on my dreams
Chance drearily passes me by
Time and again
"I love you" is something special
And can't be used over and over, but looking at tomorrow
I want to tell you one more time
So you can make it through Coolin' relaxin' in the mornin'
Nothin' somethin' in the evenin'
Clap your ear to what we sayin'
Hundred percent globe don't stop I can't get that excited now
About a too-good-to-be-true tale wrapped up in smoke On a cold night at the last station, all alone on a bench I
think
That the dawn will surely come and take away my sorrow
I can't run away now Feel like dance
It's sad how lately I can't savor
The dizzying memories
Of some time, those distant, almost-forgotten days
Why do people whisper of a romance that colors a generation
And a love that's not enough to satisfy
Tonight with the dance Day in day out feel like dance
Anytime anywhere we like dance
Day in day out feel like dance
Anytime anywhere we like dance On tearful nights in the park, all alone on a bench I think
That the dawn will surely come and take away my sorrow
I can't run away now Feel like dance...
Feel like dance...
I love you...

I love you...Everybody dance
Try to find where is the entrance
Dance trance feel like danceFeel like dance
At some point I almost gave up on my dreams
Chance drearily passes me by
Time and again
"I love you" is something special
And can't be used over and over, but looking at tomorrow
I want to tell you one more time
So you can make it through..
