

# bad habit

## Anturage

They always said you were unhealthy  
Wouldn't be there for me, but I knew different  
They always said that you would break me  
Bend me and forsake me, I wouldn't listen  
I knew better than that, I knew just where it's at  
And it was, but it's not anymore  
And I'm not as sure as I was before  
Now I got a bad habit I just can't break  
I can't shake it, it's already much too late  
I'm standing naked with my beautiful mistake  
A bad habit and it just won't go away  
You were magical and mystic  
Tangled up and twisted and oh, so tragic  
Maybe that was the attraction  
Drove me to distraction, but I had to have it  
I got carried away, what else can I say?  
There I was, I still am  
And I don't understand why I'm stuck  
In the palm of your hand  
I got a bad habit I just can't break  
I can't shake it, it's already much too late  
I'm standing naked with my beautiful mistake  
A bad habit and it just won't go away, oh  
Why do I need you like this?  
Why don't I try to resist?  
I can't just flip a switch and watch you fade  
Now I got a bad habit I just can't break  
I can't shake it, it's already much too late  
I'm standing naked with my beautiful mistake  
A bad habit and it just won't go away  
Now I got a bad habit I just can't quit  
I can't kick it, I want more and more of it  
I'm standing naked with my beautiful mistake  
A bad habit, hope it never goes away  
I just can't quit, I can't kick it
