

Goddamn New Mexico

[Ariel Abshire](#)

Goddamn New Mexico
Cause I want you here
But youâ€™re there and itâ€™s the only thing between us
It would never work out, I know
But I try any way
Canâ€™t you see Iâ€™m dying just to see you?

Goddamn geography
And the tectonic plates
Making America shaped this way
It would never work out, I know
It would never work out, I know
But Iâ€™d try any way, anything for you
Canâ€™t you see Iâ€™m dying just to see you?

I flew over your house today
I flew over your house but I have yet to meet you

Goddamn geography
And the tectonic plates
Making America shaped this way
â€™cause it would never work out I know
it would never work out, I know
but I try any way, anything for you
canâ€™t you see Iâ€™m dying

If I could be in any place
If I could be in any place
Itâ€™d be where you are
In Phoenix where you are
Any where you are

I flew over your house today
I flew over your house but I have yet to meet you
