By The Way

Big Wreck

You would be my one bad thing
Never when you tried
I let the fire burn out again
And then inside
So let my tears be realized
Before my eyes are turned
And every lie I've tried before
Won't work no more I've learned
Drowning or bathing
I've found out
What you meant

By the way
Knowledge unexpectedly
That you and me could be
Quiet the voices in my head
Warm my bed tonight
So you could be my one again
Never when you tried
Drowning, bathing
I've found out
What you meant
By the way
