

Wombo Combo

Gang of Thieves

Lookin' at him you cant figure out what he's rockin that you're missin keep on listing
Knockin you out all day till you're soo mad that ya listened
Time after time Messin' around takin ya down and ya know hes only playin and delayin'
I can do everything that ya can only better im just sayin

Struck by the master
A short hop and I'm fucked again
He's dashing faster, blaster raining down
Struck by the master
Ya got beat yeah ya best step down
I gotta play no way I want it all

Never thought I'd sit down on my ass for another seven hours just for power
(but) I'll stick it out for one more night and then I'll devour
All of you boys makin your ploys one of my joys is to take up what you started when I'm guarded
I can do everything that ya can only better im just sayin

Struck by the master
A short hop and I'm fucked again
He's dashing faster, blaster raining down
Struck by the master
Ya got beat yeah ya best step down
I gotta play no way I want it all

No one wants to face it all alone
So with him follow
Got a kindred spirit out on a loan
Never you wallow
No man wants to face it all alone
So with him follow
Still searching for a place to call home
Above the hollow

Struck by the master
A short hop and I'm fucked again
He's dashing faster, blaster raining down
Struck by the master
Ya got beat yeah ya best step down
I gotta play no way I want it all
