

Disaster

London Session Orchestra

I'm trying not to pretend that it wont happen again, and again like that
Never thought it would end, cuz you got up in my head, in my head like that
 You made me happy baby, love is crazy, so amazing
 But it's changing, rearranging
 I don't think I can take anymore
 Cuz the walls burned up and our love fell down
 And it turned into whatever, now we're saying never
 Feel the fire cuz it's all around and it's burning
 For forever and always
 We gotta let it go, be on our way
 Live for another day, cuz it ain't the same, my baby
 Watch it all fallin to the ground
 No happy ever after, just disaster
 I didn't want it this way, I only wanted to say
 I loved you right
But now you walkin away, and leavin me here to stay
 So foolish of me to wait for you to realize
 All the things I gave you, made you, change you
 Your dreams came true
 When I met you, now forget you
 Don't want anymore
 Cuz the walls burned up and our love fell down
 And it turned into whatever, now we're saying never
 Feel the fire cuz it's all around and it's burning
 For forever and always
 We gotta let it go, be on our way
 Live for another day, cuz it ain't the same, my baby
 Watch it all fallin to the ground
 No happy ever after, just disaster

You shot the bullet , you shot the bullet that killed me
 Not feeling my heart beat, and I was dyin
 I I've been through it, I I've been through the agony
 And now my eyes are, dryin, tryin, no more cryin,
 Like it's just a game,
 So disaster strikes and I'm all right
 Cuz my loves on his way
 Yeah
 Burning up forever and always (always)

yeah yeah yeah
Cuz the walls burned up and our love fell down
And it turned into whatever, now we're saying never
 Feel the fire cuz it's all around and it's burning
 For forever and always
 We gotta let it go, be on our way
 Live for another day, cuz it ain't the same, my baby
 Watch it all fallin to the ground
 No happy ever after, just disaster
 Cuz the walls burned up and our love fell down
 And it turned into whatever, now we're saying never
 Feel the fire cuz it's all around and it's burning
 For forever and always
 We gotta let it go, be on our way
 Live for another day, cuz it ain't the same, my baby
 Watch it all fallin to the ground
 No happy ever after, just disaster
 Just disaster
 Oh whoa! Burnin up forever and always
 Always, yeah
