Deserve Better

Amy Diamond

Talk to me
Now what is going on?
I don't know what you're thinking
Just look at me and tell me what is wrong
It feels so like we're faking
Remember how we used to say "forever"
Then you had to go and throw it all away, ooohYou say "I'm sorry baby"
"Never mean to hurt you baby"
I am like "whatever"
I just don't care
I know I deserve betterYou say you can't believe the pain
That you'll never cross the line again
I am like "whatever"
I just don't care
I know I deserve better
I know I deserve betterTalk to me
I just don't understand
How we made nothing
Out of something
If we were built like castles in the sand
Then what's the point in even trying?
Remember how you said used to say "forever"
Then you had to go and throw it all away, yeahYou say "I'm sorry baby"
"Never mean to hurt you baby"
I am like "whatever"
I just don't care
I know I deserve betterYou say you can't believe the pain
That you'll never cross the line again
I am like "whatever"
I just don't care
I know I deserve betterNot meant to feel like this
I won't take it anymore
(I deserve better)
Tired of this mess
I was better off before
(I deserve better)
OoooooooohYou say "I'm sorry baby"
"Never mean to hurt you baby"
I am like "whatever"

I just don't care
I know I deserve betterYou say "I'm sorry baby"
"Never mean to hurt you baby"
I am like "whatever"
I just don't care
I know I deserve betterYou say you can't believe the pain
That you'll never cross the line again
I am like "whatever"
I just don't care
I know I deserve better
I know I deserve better
I know I deserve better
