

Every Time I Try

Absence of Concern

The worst is over, the world is movin' on.
Every time I try she leaves me in the dust.
Why do I suffer everytime I try, everytime I try!

This is where you left me.
This is where I'll stay
This is what you wanted
This is what I became.
The freak that you wanted
Is down on his knees
This time I feel that I've become the enemy.

The game is over.
And what's done is done.
I'd rather leave this where it lies and never return.
If I was sober, then maybe I could cry
But everytime I fail, because everytime I try.

This is where you left me.
This is where I'll stay
This is what you wanted
This is what I became.
The freak that you wanted
Is down on his knees
This time I feel that I've become the enemy.

This is what you wanted
So this is what I became.
The freak that you wanted
Is down on his knees
This time I feel that I've become the enemy.

Alone in my car.
One hand down my pants
Now I close my eyes
To feel you again.
For this moment in time
You're back in my life
My enemy

This is where you left me.
This is where I'll stay
This is what you wanted
This is what I became.
The freak that you wanted
Is down on his knees
This time I feel that I've become the enemy.

Everytime I try, everytime I try
My enemy
Everytime I try, everytime I try
This is all that you left for me to live on
So all I leave you is this song.
