

# Telecosmic Alchemy

## Sebadoh

In blase and dream away  
Nothin' grew, so mark it bland (?)  
I'm sad, fuck sad, I'm teary-eyed  
Want a lovey-dovey honey, that's what I like  
I'm the finest drifter you'll ever meet  
I'm the kindest drifter you'll ever meet  
Don't think nothin' cards condemn  
I'm sure we both cut and shuffle them  
I cry 'cause I'm drunk, plead 'cause I'm down  
Gravity immune, yeah, I didn't leave town  
Learn to talk, teach me alchemy  
Now the witch can't spell what my future might be  
Want a lovey-dovey honey that will learn to talk  
I bought the gin and tonic, if you care to walk  
Carry on I will, my soul melting down  
Rotten beans, stumbling, now it's nothing but the town  
I'm the finest drifter you'll ever hate  
But I'll cook for you and I'll clean my plate
