

# Take It Slow

## Forever The Sickest Kids

I'll call you when I can, please try to understand,  
If I decide to take it slow,  
Will you take me by the hand, or find someone who can, then come crawling back when you  
feel alone?

Let's take our time and live our lives,  
If you say you're unsure, don't call me to say goodnight.  
Don't think that I'm not on your side, we spent the whole year in this same stupid fight  
What did I do?  
Did I do this to you?  
What did I do?  
Did I do this to you?

You say you never wanted this to end, but I'm hearing different from your friends  
Hey if you relax I'll take a day, I'll take some time off.  
But I never wanted it to be the way it seems so sad and so misleading,  
You're threatening to leave me and lose everything we had.

Let's take our time, and live our lives,  
If you say you're unsure, don't call me to say goodnight.  
Don't think that I'm not on your side, we spent the whole year in the same stupid fight.  
What did I do?  
Did I do this to you?  
What did I do?  
Did I do this to you?

We're seeing differently, you're losing everything you had,  
You're losing your heart so fast.  
But I'll get over you if it's what you wanna do,  
What did I do?  
Did I do this to you?

Let's take our time, and live our lives.  
If you say you're unsure, don't call me to say goodnight.  
Don't think that I'm not on your side, we spent the whole year in the same  
stupid fight.
