Keep Trying

Against All Authority

Advisory - the following lyrics contain explicit language:

I offer little resistance it's a pitiful existence
your industry is polluting me and my mind and I
can barely find the time to read the signs of
things to come that's what they want you to know
that's what they want another song won't change a thing
a revolution I could sing but that never
changed any fucking thing your contempt and
disregard for human rights outrage us all
I keep tryin' that's all I can do you've made a
mockery of justice with your systems and your
laws
