

I Wish That

[Bianca Ryan](#)

I wish that this world was one world
I wish that love ruled on this earth That everyone would try, try to take sometime
To show some kindness
That every life would be a life that knows
No loneliness, this is my wish And I wish that there would be no wars
And I wish that no one had to hurt no more
And I wish that everyone could see
Only love is worth fighting for And I wish that all of us could live
In a world where all of us could forgive
And I know it's just a dream
But I wish this could be I wish that no tears would be cried
I pray that peace comes to these times That love would be the light
That would light our way through all the darkness
That all of us could find the loves
To fill our hearts with, that is my wish And I wish that there would be no wars
And I wish that no one had to hurt no more
And I wish that everyone could see
Only love is worth fighting for And I wish that all of us could live
In a world where all of us could forgive
And I know it's just a dream
But I wish this could be Maybe I ask too much
Maybe I shouldn't try
But only faith can take us
Through these troubled times I wish that love ruled on this earth And I wish
And I wish
And I wish And I wish that all of us could live
In a world where all of us could forgive
And I know it's just a dream
And I know it's just a dream but I wish this could be
