

# Little Things

## James Bright

I'm always with you  
Wherever you go  
Always with you  
The path that leads into  
My door, is always with you  
Forever more

I'm always with you  
Each move you make  
When I'm dancing for you  
It's time to wake  
And I found you in love  
The skies, the stars, the leaves, the waterfalls  
I found you

Love. You can not find  
With things i find  
With you  
That makes it all feel right  
That makes it all feel

Love. You can not find  
With things i find  
With you  
That makes it all feel right  
That makes it all feel right

You're always with me  
Wherever you go  
Feel you with me  
Each breath i draw  
And I know you wonder  
But love has found me

Made it by my side  
Its warmer than the cold  
The troubles fly  
Its warmer than the cold  
I found you in love  
The skies, the stars, the leaves, the waterfalls

I found you

Love. You can not find  
With things I find  
With you  
That makes it all feel right  
That makes it all feel right

Love. You can not find  
With things I find  
With you  
That makes it all feel right  
That makes it all feel right

You're always with me  
Wherever I go  
You're always with me  
Wherever I go

---
