

# The Turning Point

## Toto

I went down to the highway  
That runs between love and pride  
And I tried to get sideways  
Across the great divide  
But my mind's eye's on the key ring  
Crying in misery  
'Cause it won't spend one more evening  
Staring back at me  
It might be by choice or a small inner voice, I can't say  
When you add up the cost, we all have a cross  
How do you write off the loss?  
Where do I go from here?  
How do I find my way?  
When is it loud and clear  
That there's no turning back, no looking back?  
Where do I go from here?  
Nobody gets away  
It's a new kind of fix for the poor and the rich  
You never know what's coming next at the turning point  
The rules are unwritten  
Nobody knows the deal  
Where have I been driven  
Are demons behind the wheel?  
Yeah, I know my days are numbered  
We're only flesh and bone  
And I've been left to wonder  
How it went so wrong  
Is it all tailor made, can the sinner be saved, I can't say  
So don't hang your hat on the knife in my back  
'Cause nobody treats me like that  
Where do I go from here?  
How do I find my way?  
When is it loud and clear  
That there's no turning back, no looking back?  
Where do I go from here?  
Nobody gets away  
It's a new kind of fix for the poor and the rich  
You never know what's coming next at the turning point  
Where do I go from here?

How do I find my way?  
When is it loud and clear  
That there's no turning back, no looking back?  
Where do I go from here?  
Nobody gets away  
When is it loud and clear  
That there's no turning back, no looking back?  
Where do I go from here?  
Nobody gets away  
It's a new kind of fix for the poor and the rich  
You never know what's coming next at the turning point
