Come Back To Me

Trading Yesterday

if I hold out my hand
would it change where you're standing now
and just come back to me

leave all you found
that's keeping your heart on the ground
and just come back to me

you're so afraid for love to come around your heart again
when it's the only thing you need
just come back to me

calling out your name
wishing you could do the same
just come back to me

whatever it takes
I will wait until my dying day
just come back to me

you're so afraid for love to come around your heart again
when it's the only thing you need
just come back to me

this is my only hope
that the love that will not let me go
will find it's way back in to your life
so I will not close my eyes
until I see you by my side
lovin' me tonight

if I hold out my hand
would it change where you're standing now
just come back to me
