

Real Thing

Alice In Chains

I messed around as a little boy
I grew up, made the blade my new toy
Friends said boy with what you screwin' around I said
Don't concern yourselves and just
Gimme another blast
Yeah
Under the hill, with just a few notches on my belt
Take it away, don't want no more
Even if you say just one more
I won't leave you alone
I grew up, went into rehab
You know the doctors never did me no good
They said son you're gonna be a new man
I said thank you very much and
Can I borrow fifty bucks?
'Cause I'm goin' down the steps on a white line
Goin' down the steps on a white line
Goin' down the steps on a white line
Straight to nowhere
'Cause I'm goin' down the steps on a white line
Goin' down the steps on a white line
Goin' down the steps on a white line
Straight to nowhere
I messed around as a little boy
I grew up, made the blade my new toy
Friends said boy with what you screwin' around I said
Don't concern yourselves and just
Gimme another blast
Yeah
'Cause I'm goin' down the steps on a white line
Goin' down the steps on a white line
Goin' down the steps on a white line
Straight to nowhere
