

# Please

**Eric Hutchinson**

Please don't say you resemble me  
When you're walking out the door  
Cause I've heard it all before  
Please don't say try to assemble me  
When I'm slipping out of line  
Cause you're trying to change my mind

[Chorus]

And you laid down the law  
And I stuck to my guns  
And you're quick on the draw  
But you draw from my funds  
And I'm crying out loud  
For the whole damn thing to end

Please don't say that you understand  
When I'm feeling the attack  
And you stab me in the back  
Please don't say that it wasn't planned  
Should've seen it from the git-go  
Now it's easier to let go.

[Chorus]
