

# The Sahara's Storm

## Orphaned Land

(Lyrics: Parts of the "HALEL" praising words, Alon M., Kobi F. & partsu'ma natata lo? u'ma natata lo?  
veketer lerosho natata lo ..

(trans: and what have you given him? and what have you given him?  
and a crown for his head you have given him ..)

I call the mighty prophet  
Taint my sword with blood  
Help in my holy "JIHAD"  
As I tear, kill and maim  
All is done in your name  
For me God shall do the same  
My faith is left to blame  
Even though our God is one  
You'll just spill blood - It shall be done  
This all shall die  
Fire from the sky  
Can't ask God why - This kingdom cry ?  
Open my eyes - See only sand  
It shatters all life And kills the land  
I drown in my self - of the heat  
In the desert I storm  
War of gods, you cannot deny  
Into damnation we shall fly  
I am becoming all and all becoming one  
When all has been said and all has been done  
Now it ends - can rise no sun  
Let thy will lead us on  
"But to those who believe not in the signs of God..."  
..."God witnesseth that there is no god but He"  
Infidels that worship the worm  
Shall bring SAHARA's storm.
