

# Asteroid

## Field Mouse

Haunted house inside my chest  
You're better than all the rest  
Got your eyes in stormy seas  
Lost your mind and your way back to me  
It's a shame, it's a shame  
You and I, we're just the same  
It's a shame, it's a shame  
You wake up so you can just walk away  
You walk away  
The asteroid was just a satellite  
Your hands in scorpio moonlight  
Got your eyes set on another  
You never tried, you've got no claim to me  
It's a shame, it's a shame  
You and I, we're just the same  
It's a shame, it's a shame  
You wake up so you can just walk away  
You walk away  
You walk away
