Back Up

Nonpoint

Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up
You got a bad attitude comin' up from inside
You better watch your mouth, you got plenty to hide
You come across so heavy you're a buck o five
Better rest your fist and try to use your mind
I'm not punkin' out, I'm just movin' up
Say your comments loud but try to back 'em up
Keep your ass far away and stay with yourself
Alone in a cage aggravate someone else
Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up
You in your baggy ass jeans with your baggy ass lip
You 'bout to lose all your shit with the butt of my fist
You better use your mind fast and bring your pressure down quick
'Cause you feather weight fuckin' in this heavyweight clique
You know karate, got a shiny gun in your hand
Got a razor blade hat with a knife in the brim
I ask you all the fuckin' questions, don't lookin' at him

Your own stupid answers got you what you are in place
Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up
No time spending on your thinking because something's really strange
Don't care about the drinking, makes the voices go away
'Cause they hear what I am thinking, let your ego get away
Then you'll find that you are missing what can teach you every day
No time spending on your thinking, let frustrations get away
I'm not holding it inside me I'll just let it bay
What it wants to, when it wants to spontaneously
How it covered with me?
Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up

Wise up because I'm fed up, you better back up
Wise up because I'm fed up, you better back up
You better back up, you better back up, you better back up
Wise up because I'm fed up you better back up
Wise up because I'm fed up you better
