Advisory - the following lyrics contain explicit language:

[CHORUS]

I thought I'd die when you left

But I'm still taking a breath

I'm okay

Now I'm still here now you're gone and I'll keep singing my song

I'm okay[VERSE]

We been fighting, cussing screaming

Tell me love oh what's the reason?

I thought we loved each other so

Been throwing pots and pans not holding hands oh lover tis the season

That I've got to let you go

Shoulda known from the start that you'd tear up my heart, I'll never...[CHORUS]

I thought I'd die when you left

But I'm still taking a breath

I'm okay

Now I'm still here now you're gone and I'll keep singing my song

I'm okay[VERSE]

You're bad at cheating

Thought you were different from them all

Now you gotta look your daughter in the eyes and tell her that her daddy's leaving

You're so stereotypical

Shoulda known from the start that you'd tear up my heart, I'll never...[BRIDGE]

Get up girl and dry your tears it's messed up how he makes you feel

I know you don't wanna be lonely

And what you gonna do for money

But he's lying, cheating on you when you're trying to raise a family

Forget that

Fuck that

You can make it without him...
