

What Happens If I Can't Check My Myspace When We G

Attack Attack!

Come on
Lay down your head
And sleep with me tonight
Lay in this bed Recall the black book, I'll forget you
Complaining to myself to leave this
Behind my smile, will be a lie
For why you are gone Come on have some selfless-ness
Don't give into arrogance
Sleep with peace tonight
(I'm waiting for the day) We're gonna win this fight
(You've found your better man
I've been waiting for the day)
We're gonna win this fight Lay down your head
And sleep with me tonight
Lay in this bed
Lay down your head And sleep with me tonight
Lay in this bed
Don't worry, I've let you go
Long before you left me
