Call Me Crazy

State Of Shock

All the lights are going down on Main Street
The parking lots are filling up with teenage dreams and pickup truck
There's going to be a race tonight
That's where I'm going to catch your eye
Right across that finish line
Is where I'll make you mine

And if it's crazy
To think that maybe
All you need is a love that's true
Well then baby
You can call me crazy
Because I think I do

This ol' GTO can't go no faster
There are only two ways out tonight winning or disaster
Nothing but dust in my rear view
Everybody's cheering but all I want is you

And if it's crazy
To think that maybe
All you need is a love that's true
Well then baby
You can call me crazy
Because I think I do

After the smoke has settled on this town
You're going to know why true love don't back down
Cause when my wild hairs have turned to grey
I still will feel this way

And if it's crazy
To think that maybe
All you need is a love that's true
Well then baby
You can call me crazy
Because I think I do

Call me crazy
You can call me crazy

You can call me crazy
