Bubblegum

Totem

[Verse 1]
Don't know why, I don't know why
I've been waiting for you
All alone, all alone
Like I'm stuck here in glue[Pre-Chorus]
Oh, I've been told I should be getting over the obstacle of you
And we're too young for growing older, I need somebody new
And now I see that you were colder than any winter flu
But I'm over you[Chorus]
Oh, girl, your sugar turns so bitter now
Like bubblegum, stale in my mouth
I hate the taste
And though I tried my best to spit you out
You're still in my blood, you stick around
I hate the taste[Verse 2]
Wanted love, I wanted love
But never wanted to learn
I built you up, built you up
You tore me down in return[Pre-Chorus]
Oh, I've been told I should be getting over the obstacle of you
And we're too young for growing older, I need somebody new
And now I see that you were colder than any winter flu
But I'm over you[Chorus]
Oh, girl, your sugar turns so bitter now
Like bubblegum, stale in my mouth
I hate the taste
And though I tried my best to spit you out
You're still in my blood, you stick around
I hate the taste[Bridge]
Wish I could spit you out my mind
Leave you and all your shit behind
Wish I could spit you out my mind
I'm over you[Chorus]
Oh, girl, your sugar turns so bitter now
Like bubblegum, stale in my mouth
I hate the taste
And though I tried my best to spit you out
You're still in my blood, you stick around

I hate the taste
