

# Science

## New Musik

Someone asks a question  
To someone in a room  
Of power law and distance  
In baskets of balloons  
It's all so scientific  
Natural scientific  
We've got it scientific  
Now now  
Never touched by radio  
There's something on the air  
And you generate and you radiate  
Solutions everywhere  
It's all so scientific  
Natural scientific  
We've got it scientific  
Now now  
You are material  
An observation  
Look at all the people  
Standing in their lives  
In a world of wonder  
A haven dipped in science  
It's all so scientific  
Natural scientific  
We've got it scientific  
Now now  
It's all so scientific  
Natural scientific  
We've got it scientific  
Now now  
It's all so scientific  
Natural scientific  
We've got it scientific  
Now now
