A Wolf In Geek's Clothing

The Naked and Famous

No sweat, take a bow
Don't fret; it's over now
Overflow
Shake a fist
Howling at the empty mist"Found something!"
Starts to burn
Fades away
The wind it turns
Ashes flow
Murmurs glow
Run away
Forget the dayLouder now, nothing's felt
Let's get them all to yelp
Make a space
Set it free
Tug and pull
They will see"Found something!"
Starts to burn
Fades away
The wind it turns
Ashes flow
Murmurs glow
Run away
Forget the dayForget the day, forget the day, forget the day
