

# Lived In Vain

[Colin Hay](#)

Walking with a crowded head  
From nightmares of drinking  
So I don't believe in every dream  
Or everything I'm thinking  
Hey can't you see just a little bit before you leave  
Hey can't you leave a little taste just for me  
It's not easy to explain  
A life you think is lived in vain  
Like a twisted wind that's bearing down  
That rearranges  
Blowing through these prison bars  
Of our imaginary cages  
Hey can't you see just a little bit before you leave  
Hey can't you leave a little taste just for me  
It's not easy to explain  
A life you think is lived in vain  
Waiting for my second spring  
Where I'm connecting everything  
No fixed address or destination  
No more lines of separation  
Where only love  
Only love  
Only love  
And love is real  
Nothing's bad and nothing's good and nothing changes  
Day by day one by one I just turn the pages  
Hey can't you leave just a little light to shine on me  
Hey can't you leave a little light so I can see  
It's not easy to explain  
A life you think is lived in vain
