## Morbid Angel

I am the void of light, silence, I am the dawn of time  
I am the all you see, emptiness I am the nonI am the air you breathe, treachery, I am your wine  
I am the soil and seed, mundane, I am the in between  
taste of my knowledge  
come bleed me weakof my force feed  
drink of my powerbreathe of the mist dine upon divinity  
our return is now  
from the earth and windforever and now again  
voice of the ancient ghosts  
now your chains are stripped awayI am the void of light, silence, I am the dawn of time  
our voice is one  
taste of my knowledge  
I am the soil and seed, mundane, I am the in betweendine upon divinity  
come bleed me weakfrom the earth and wind  
our return is now  
now the chains are stripped away
