

Keep On Moving

Starstylers

Your body, your soul
Feel the rhythm
Take control
The music guides you into this room
So keep on moving, you're ready to go Come on baby I want to party
Come on right to the dance floor
I wanna swing the day off
And everybody's moving
So come on, keep on grooving
So if you want to party, come on and move your body
Come on and move your body
Your body and your soul
So you can hear the DJ
He takes you in control
So step into this beat now
The beat that makes you move
The movement gives you power
The power to the groove Come on baby I want to party
Come on right to the dance floor
I wanna swing the day off
And everybody's moving
So come on, keep on grooving
So if you want to party, come on and move your body
Come on and move your body
Your body and your soul
So you can hear the DJ
He takes you in control
So step into this beat now
The beat that makes you move
The movement gives you power
The power to the groove I wanna swing the day off
And everybody's moving
So come on, keep on grooving
So if you want to party, come on and move your body
Come on and move your body
Your body and your soul
So you can hear the DJ
He takes you in control
So step into this beat now

The beat that makes you move
The movement gives you power
The power to the groove
