

# Round And Down

## Steppenwolf

One another, love each other, friendliness is kind  
Specially when you're a friend of mine  
Come together at the same time  
Round and round and a get down  
Round and round and a get down  
Round and round and a get down  
To each other, sister, brother  
We're not getting up, going down  
Round and round and a get down  
Round and round and a get down  
Round and round and a get down
